

NOMAD - media professionals most versatile companion

Ideal **desktop analytics** tool for the technician on the move

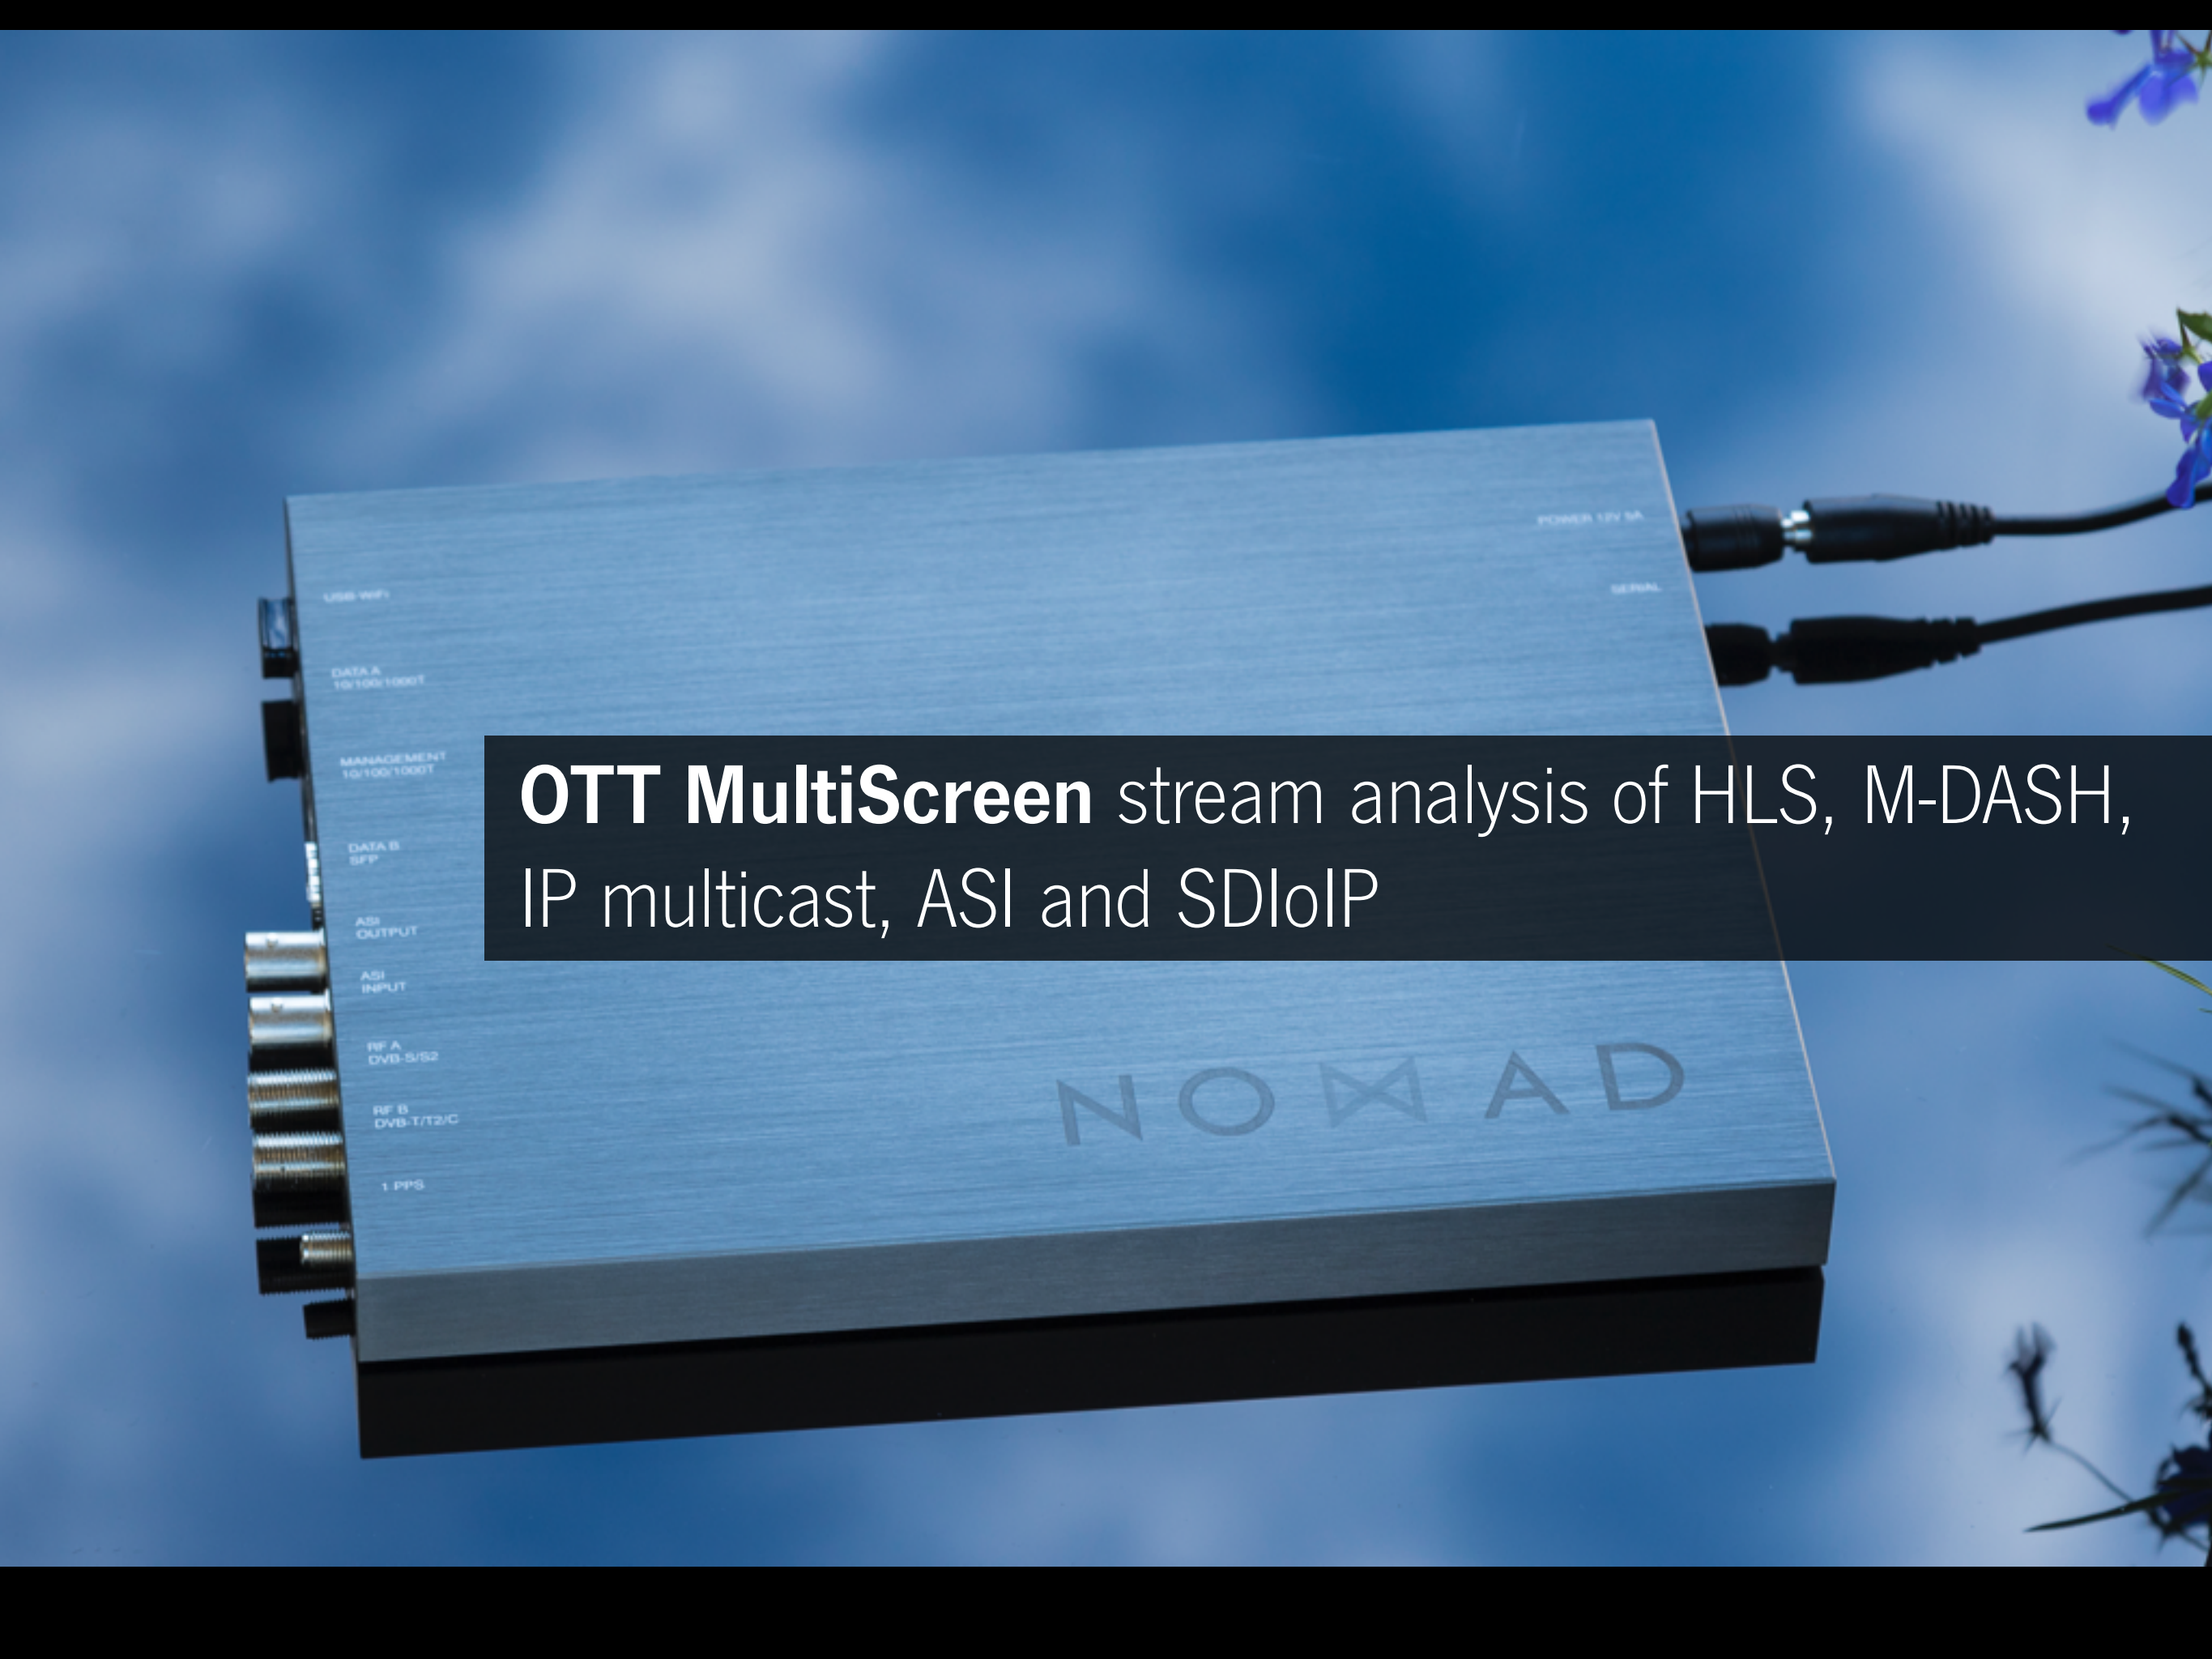

In-depth analytics for IP, OTT and DVB signal behaviorisms

A black rectangular receiver device with the brand name 'NOWAD' embossed on its top surface. The device is positioned in the foreground, slightly to the left. In the background, a silver laptop is open, and two white coffee cups filled with coffee are stacked on a saucer to the right. The scene is set on a dark, reflective surface.

Interfaces - WiFi zone, Ethernet, ASI, DVB-C, DVB-T/T2, DVB-S/S2 and external 1PPS GPS time-reference

OTT MultiScreen stream analysis of HLS, M-DASH, IP multicast, ASI and SDI over IP

RF monitoring of Satellite, Terrestrial and Cable sources

Breakthrough design for any broadcast and telecom environment

NOMAD sets a new standard for both ruggedness and finish

WiFi enabled, point NOMAD at your laptop, and it's ready for use
